

Chancez Skill Development can help you identify and learn specific skills within a set time so you can work towards achieving your big life goals.

Together with Chancez Skill Development, you can create a Specific Skill or Lifestyle Plan that will:

- prioritise key skills and qualities that will help you fulfill your goals and dreams
- set key goals to focus on one at a time
- support you to achieve these with intensive-focus support delivery
- provide imaginative learning opportunities in an individual or group setting

NDIS

You can use this service if you have NDIS Skill Development funding that has been approved for a specific learning outcome.

Chancez Skill Development

Focusing on the details so you can complete the big picture

With the right NDIS funding, Chancez Skill Development can offer you the opportunity to work with Araluen's Senior Practice Manager to devise a Specific Skill and/or Lifestyle Plan that can be applied within Araluen's support services.

You can then focus on improving a specified area of development that is considered necessary for you to live a better day-to-day life or improve social and employment possibilities in the long term.

Routine assessment and evaluation of individual progress will be performed to ensure you are on track to meet your goal and inform on-going skill development approaches, plan for the future and provide clear evidence to potentially support future NDIS funding applications.

Who's it for?

Chancez Skill Development provides people of all abilities with the opportunity to learn new skills, however large or small. This service is strongly recommended for individuals who want to be more independent, improve their employment prospects, better their home living skills or lead a more community-orientated life.

Target Areas

- Travel Training
- Domestic Living Skills
- Vocational Training and Employment Access
- Increased Community Access and Participation
- Improved Social Relationships and Wellbeing (including Communication)
- Referral to Allied Health Therapies such as Speech, Occupational Therapy and Counselling where appropriate
- Transition and Life Planning
- Personal Finance Management Skills
- Parent/Carer support and training
- Skill development in a group

IMAGINING

Imagining and achieving better lives
