Support Coordination

## Put your plan into action - with choice and control!

The NDIS can be confusing. Araluen Support Coordination can help you better understand your plan and overcome any challenges that might effect your ability to independently find and direct your range of support providers.

We'll work with you to help you live a more independent life and learn to manage your supports in the future.

Araluen's Support Coordinators are experienced disability professionals who are skilled at sourcing a wide range of supports and well-connected to local providers and services. They understand how flexible NDIS funding can be and know how to maximise the possibilities it offers you to achieve a better life.

This lets you be more informed about all the available options so you can make confident choices and achieve your goals. And we can help on an on-going basis to make sure your supports meet your expectations.

Support Coordination is time-limited and available to you if it has been approved in your NDIS Plan.

## Some things that we do:

- find and link you to mainstream, community, informal and paid supports
- explore a wide range of support options
- ensure your supports are reliable, effective, and good value-for-money
- help with Service Agreements
- arrange specialist and/or therapeutic assessments as required
- financial management of your NDIS funding
- monitor your NDIS plan outcomes and track your spending, and report this to the NDIA
- resolve issues with support providers
- assist you redefine your goals when it's time for a plan review or if your circumstances change
